A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 10/23/06 has been entered.

The cited prior art fails to disclose or suggest the process as claimed, with specific steps of forming a drainage pattern with equal and parallel spacing to provide uniform coverage, and the simultaneously removing water and gas uniformly from the formation. It is noted that the cited reference show what appear to be well logs documenting varying amounts and/or rates of water and gas production. None of these logs appear to document removing water and gas uniformly.
